🎓 Experienced Tutor | Lund University | MSc in Theoretical Physics

With an MSc in Theoretical Physics from Lund University and a BSc in Physics from Uppsala University, I bring 14 years of expertise in A-Level and IB Physics, guiding students worldwide in topics like quantum mechanics, thermodynamics, and astrophysics.

Teaches:

A-Level Physics

IB Physics

GCSE Physics

AP Physics

Curriculum:

A-Level

IB

GCSE

AP

Qualifications

Lund University: MSc in Theoretical Physics (2007–2009)

Uppsala University: BSc in Physics (2004–2007)

Vetted Tutor

Personally Interviewed

Our tutors go through a rigorous selection process, having been interviewed to assess their teaching skills and subject knowledge. **They have extensive tutoring experience with a track record of success**, helping students achieve their academic goals.

Tutoring Experience

Over the past 14 years, I've worked with students from Europe, Asia, and North America, providing expert tutoring in A-Level, IB, and AP Physics. My lessons are focused on breaking down complex concepts like electromagnetism and quantum theory into manageable components, ensuring students excel in exams and coursework.

I've also supported students in preparing for university applications, offering guidance on physics-related academic essays and research proposals. Many of my students have been admitted to prestigious universities in the UK, the US, and Sweden.

In addition to academic tutoring, I've collaborated with schools to enhance science curriculums, introducing innovative methods to explain advanced physics principles. This experience has allowed me to build a solid foundation for students, helping them achieve their academic goals while developing a passion for the subject.
